

International Webinar on Focusing on Mathematical Models & Analysis of Covid -19 Crisis

From 6/17/2020 [2 day(s)]

Organized by

**International Webinar on Focusing on Mathematical Models & Analysis
of Covid -19 Crisis**

Date & Time	Theme	Organizer	Speaker
17 th -18 th June 2020	International Webinar on “Focusing on Mathematical Models & Analysis of Covid -19 Crisis”	Office of International Affairs (OIA) & Lappeenranta University of Technology, Lappeenranta, Finland	Prof. Edwin R. van den Heuvel Eindhoven University of Technology, The Netherlands Prof. Thomas Goetz , University Koblenz-Landau, Germany Professor (Dr.) Tyll Krueger , Dept of Control Systems & Mechatronic, Faculty of Electronics, Wroclaw University of Technology, Poland Prof. Arni S.R. Srinivasa Rao , Director, Laboratory for Theory and Mathematical Modeling, Dept. of Population Health Science: Epidemiology Medical College of Georgia, Augusta University, Georgia, USA Prof. Matti Heilio Lappeenranta University of Technology, Lappeenranta, Finland
			

International Webinar on Focusing on Mathematical Models & Analysis of Covid -19 Crisis

Resource Person: 1) Prof. Edwin R. van den Heuvel Eindhoven University of Technology, The Netherlands. 2) Prof. Thomas Goetz, University Koblenz-Landau, Germany. 3) Professor (Dr.) Tyll Krueger, Dept of Control Systems & Mechatronic, Faculty of Electronics, Wroclaw University of Technology, Poland. 4) Prof. Arni S.R. Srinivasa Rao, Director, Laboratory for Theory and Mathematical Modeling, Dept. of Population Health Science: Epidemiology Medical College of Georgia, Augusta University, Georgia, USA. 5) Prof. Matti Heilio Lappeenranta University of Technology, Lappeenranta, Finland

Total 89 participants were present this event.
